EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The TITLE now reads:

--Making a photosensitive fiber with collapse of a MCVD tube that is in a small positive pressure atmosphere.--

The following is an examiner's statement of reasons for allowance: To clarify the previous reasons for allowance: As per the definition at the top of the paper filed by applicant on 25 September 2002 the claims requires a pressure greater than ambient and the claim does not read on a pressure equal to ambient. Also, the claims do not limit what atmosphere is in the tube.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
